

Keep all eyes on our future.

That's what **Technology** does.

Technology at UBS in Poland

Technology sits at the very heart of UBS. And we're here to keep UBS competitive in a digitized world. As a team of thousands of technology professionals, we have a critical role to play in building, delivering and maintaining the systems, services and infrastructure that power our business.

As part of our team, you can get involved in all kinds of activities. For example, you'll:

Develop and implement smart, simple, well designed products and solutions for our clients and our teams.

Be responsible for building, maintaining applications and systems infrastructure.

Work with established and emerging technologies, often early in the development cycle.

Provide technical support to the whole of UBS across a wide range of systems and functions.

Work with our businesses to understand their needs and deliver the best technical solutions.

Promote a culture of transparency, accountability and continued improvement.

Success. Here we go.
